Hi! my name is **soufiane talil**
I'm a passionate designer who love to create beautiful things every single day in my life . Being intersted in most of creative fields, I would like to talk and make friends with creative & passionate people . I'd love to learn more about graphic design fields and always try to develop my skill . I'm seeking for graphic design position which fit my background, talent and career goals .

New Balance 868 (skateboarding)

New Balance numeric introduces the 868, our most technically advanced shoe to date. After analyzing data collected by New Balance's sports research lab, we designed the 868 with a dual-durometer C-Cap® midsole to provide cushioning in the high impact zones without sacrificing board feel. Fantom Tape is used to add support to the breathable mesh quarter panels.
The heel of the 868 features N2, a New Balance running technology that provides stability and impact protection where skateboarders need it most.

- C-CAP® midsole provides cushioning and support
- Closed cell polyurethane (PU) insert protection provides super impact protection and consistent fit
- Fantom tape provides bonded lightweight strategic support
- FantomFit is a skeletally engineered upper that provides ultra-light support and fit. It is created by fusing two extremely thin materials with a no-sew process.
- Internal hidden toe protection for added durability
- N2® low-to-the-ground cushioning technology is a responsive, durable, sustainable cushioning system in a low-profile execution
- N-Durance® rubber compound for maximum outsole durability
- Synthetic/mesh upper

Basic Stussy Dyed Crew (skateboarding)

- Regular fit long sleeve sweatshirt
- Ribbed neck, cuffs and hem
- Printed logo
- Double needle sewing on all seams
- 80% cotton, 20% polyester fleece
- Imported

Quiksilver
